

The Village

Sponsorship

- £ 3013.17 from The Mermaid Tavern Herm and Herm Plc. This money will go towards the fit out of the disabled access cabin. This cabin will require specialist facilities to enable our more complex needs students to learn how to look after themselves and therefore to live as independently as possible in the future.
- The Co-op have offered their assistance with developing 'The Village Shop". A pop up shop which can be any type of shop depending on the learning at the time eg. a grocery shop, a clothes shop, a garden shop etc. They have also offered storage space for any items which are donated before the facility is ready for them to be installed.
- £ 500 from Bank Julius Bär.
- £100,000 from Oriana Trust
- Only fools and Donkeys, a fund raising charity, have offered their help with the supply and fit of the kitchen and plans are being drawn up.

Who will use this facility?

Le Murier Students

Other local schools

Visiting school

Visiting teams

Charity Groups

etc.

Any "not for profit" organisation

If you think you could help us in any way

The Village at Le Murier

Le Murier School Community Project

"The Village"

We have raised £135,000 this year we now need to raise an other £160,000 to finish the project.

Progress

- R G Phillips were successful with their tender and have almost completed The Village Hall.
- The paving and landscaping will be done in the new year.
- Also in the new year the kitchen will be installed.
- The plans for the four cabins are finalised and the preferred supplier has been identified, "Keops". Thanks to States Property Services for all their help with this.
- The pathway that Northern Trust installed for us is being maintained by Le Murier students so it will be ready to use as soon as the building work is completed.

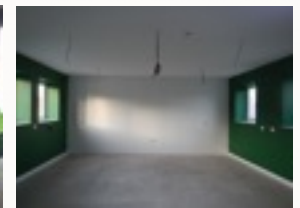

The Village

The village will enable Le Murier students to develop independence skills more often, more economically and in a real life context. The students will be able to access this type of learning weekly, learning vital independent living skills which will hopefully give them a useful and helpful start to adult life making them more confident, safe and responsible in their next steps in life.

"The Village Hall" - a building with a classroom/workroom and a commercial type kitchen.

The students regularly visit the site to see what's happening

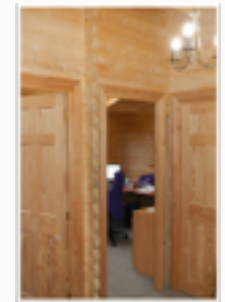

The classroom is nearly finished

"The Village Cabins" - 4 log cabins, 3 of them housing 8 students and a member of staff and 1 fully accessible cabin for 4 students and 2 staff.

A Keops cabin just like the ones we are building

"The Village Campsite" - a campsite for light weight camping eg. Duke Of Edinburgh's Award expeditions.

"The Village Woodland and Wetland" - an area for environmental learning.

The woodland walk from school to The Village

The land ready for the cabins to go on
